

# Director Tips, Tricks, & Techniques

## Cute Trick

### Toolkit Visual Analysis

To compare the EPS trend with the price trend, Move the Price Bars so that the mid-point of the last years price bar coincides with EPS for the last year.

In the above depiction, EPS appears to be outpacing Price. You will also note a decrease in PE.

Note: Occasionally the price bars will not let you set them as you wish. Then move the Earnings to the mid-point of the latest years high/low price bar.
